

WHO WE ARE

Essential Home is the epitome of retro design. Its mid century modern lines merge important historical references from the 30s and 60s with contemporary influences. The harmony of masculine and feminine, classic and contemporary, high and low, is integral to the brand's maverick sense of refinement yet iconic style. The brand deals with different, intimate and cozy ambiences that express the elegance and the luxury that is conveyed by the use of rich material now in an home environment. Essential Home has a midcentury modern signature that makes it irresistible to us all.

WHAT MOVE US

Inspiration. Design. Eat. Sleep. Inspiration. Design. Eat. Sleep. Repeat. The world of inspirations for the Essential Home Designer has no end. They can find it anywhere, be it on the sleek lines of a futuristic chair design by great name of Modern Living, retro ads that defined a generation, classic & iconic movie star and heartbreakers from the 60s, from Brandon to Breakfast at Tiffany's and sleek, arousing moves of a secret agent whose main concern is whether to get it shaken or stirred. A union characterized by sensitivity, colors, matter and design. Here is how the ambiences, through a strongly evocative connotation of the 50s, give their guests a sort of union between past and present. Outline of the past that merge in a contemporary and modern ambience, creating in this way an eclectic atmosphere, characterized by matt, soft and cozy tones. You know that Mad Men feeling with the cool factor? Yeah, we got it.
