CULTURA e ANIMA

Amore e passione per la materia e per le sue forme, genialità al servizio dell'innovazione, manualità ed esperienza trentennale delle maestranze, proiezione verso il futuro nel segno del design e della qualità, ricerca continua sui materiali e sulle linee.

Questo per AZZURRA è CULTURA.

Amore e passione per le persone, attenzione alle richieste di chi con il suo lavoro fa crescere l'azienda, rapporti familiari con gli operai e gli impiegati, sempre maggiore attenzione alla relazione con il cliente.

Questo per AZZURRA è ANIMA.

Il presente in AZZURRA è denso di questi due elementi.
Il futuro con AZZURRA è il solo modo di condividerli.

CULTURE AND SOUL

Love and passion for matter and its forms; brilliance in the service of innovation; craftsmanship and workers with over thirty years of experience; projection towards the future distinguished by design and quality; continuous research on materials and lines.

This is AZZURRA's CULTURE.

Love and passion for people; attention to the demands of those who with their work contribute to the business growing; family relationships with workers and employees; more and more customer focused.

This is AZZURRA's SOUL.

AZZURRA's present is full of these two elements.
AZZURRA's future is the only way to share them.

showroom.

AZZURRA.nuova sede

Chi incontra AZZURRA incontra un team che lavora da quasi trent'anni per garantire al cliente un'offerta di prodotti e servizi straordinaria. Chi incontra gli uomini e le donne di Azzurra incontra storie di passioni per il prodotto, per il design e per la qualità, incontra la cultura e l'anima dell'azienda. Il luogo privilegiato che AZZURRA ha scelto per farsi conoscere dai propri clienti è il nuovo showroom aziendale, inaugurato nel 2013. Lo showroom di circa 1500 metri quadrati ospita tutte le Collezioni e le novità di AZZURRA ed è inserito all'interno del Museo della produzione ceramica aziendale, una parte dello stabilimento produttivo dove oggi si possono visionare i macchinari che hanno fatto la storia dell'azienda e al contempo si può ammirare la lavorazione totalmente manuale dei Pezzi Speciali. Una sala conferenze e un lounge bar completano l'accogliente showroom che offre la massima ospitalità.

AZZURRA.the new corporate headquarters

Those who meet AZZURRA meets a team that has been working for almost thirty years to provide customers a wide range of products and outstanding services. Those who meet Azzurra men and women meet stories of passion for the product, for design and quality, meet the culture and the soul of the company. The privileged place that AZZURRA has chosen to be known by its customers is the new company showroom, which opened in 2013. The showroom of about 1500 square meters hosts all AZZURRA collections and range and is inside the Museum of the company ceramic production, a part of the factory where today you can see the machines that have made the history of the company and at the same time you can see the full manual processing of Special Pieces. A conference room and a cozy lounge bar complete the showroom that offers the utmost hospitality.

certificazioni riconoscimenti

La scelta forte di cambiamento, un'esigenza sentita con fermezza dai vertici aziendali di essere contemporanei e aprirsi con sensibilità al mercato che è in continua evoluzione, portata avanti con determinazione e coerenza, anche nel pieno della forte crisi economica, è stata premiante per AZZURRA che ha ricevuto, nell'arco degli ultimi 4 anni i più importanti riconoscimenti internazionali: IF, DESIGN PLUS, RED DOT AWARD COMUNICATON DESIGN, GOOD DESIGN AWARD, ADI INDEX e la nomination per il DESIGNPREIS ("il premio dei premi").

Una testimonianza importante che conferma la validità del nuovo percorso intrapreso nella direzione di una sempre maggiore qualità dei materiali, della ricerca formale, dell'innovazione tecnologica, della comunicazione.

rewards certifications

Despite the serious economic crisis AZZURRA management has experienced a strong need for change. The company has decided to be contemporary and open to a changing market with determination and consistency. This choice has been rewarding for the company which has received, the most prestigious international awards over the past four years: IF, DESIGN PLUS, RED DOT AWARD COMUNICATON DESIGN, GOOD DESIGN AWARD, ADI INDEX and the DESIGNPREIS nomination "The prize of prizes". An important attestation confirming AZZURRA new path effectiveness, aiming at increasing the quality of materials, formal research and technological innovation.

water saving

OFFICINA AZZURRA

Tutela ambientale ed efficienza idrica sono due temi a cui AZZURRA ha dedicato le proprie energie e risorse con lo sviluppo del progetto Water Saving. In un mondo in cui sempre più si parla di efficienza energetica degli edifici, AZZURRA è la prima azienda ad aver brevettato sanitari in grado di utilizzare soltanto 3 litri d'acqua ad ogni scarico. Molte imprese stanno sperimentando nuove soluzioni per creare prodotti green, sempre più attenti alla riduzione dei consumi energetici. AZZURRA è la prima azienda nel mercato dei sanitari ad aver affrontato e risolto il problema del risparmio idrico. Con una innovazione tecnologica brevettata ha creato sanitari capaci di scaricare con soli 3 lt di acqua, arrivando in alcune collezioni (thin e jubilaeum) a utilizzare solo fino a 2,7 litri d'acqua. Rispetto alle tradizionali cassette di scarico da 9 litri o alle piu' comuni da 6 litri, utilizzando le nostre cassette (b 1910 - b 1920 - b 1930) abbinate alla nostra placca di scarico monoflusso (plmc), il risparmio puo' variare tra il 50% e il 70%

9 lt → 2,7 lt 70%

9 lt → 3 lt 60%

6 lt → 3 lt 50 %

3 Lt scarico d'acqua certificato

**AZZURRA ha deciso di farvi
risparmiare. l'acqua**
**AZZURRA has decided to make
you save. water**

31.000 litri d'acqua in un anno.

600 litri d'acqua in una settimana.

85 litri d'acqua in un giorno.

Tanto può risparmiare ogni famiglia di 4 persone che usa i sanitari AZZURRA Water Saving invece di quelli tradizionali a 9 litri.

I sanitari Water Saving sono fatti per

risparmiare fino al 70% di acqua ad ogni scarico grazie all'abbinamento con le cassette di scarico e con la placca monoflusso.

Un sistema brevettato. Un primato mondiale firmato AZZURRA.

31,000 liters of water a year.

600 liters of water in a week.

85 liters of water in a day.

Such is the amount of water each family of 4 people can save when using the AZZURRA Water Saving sanitary wares instead of the traditional 9 liters ones.

The Water Saving sanitary wares are made to save, **up to 70% of water** on each flush thanks to the combination with the flushing cistern and with the mono-flow plate. A patented system. A world record signed AZZURRA.

corteccia.

"Solo dopo aver indagato la superficie delle cose ci si può spingere a vedere cosa c'è sotto; ma la superficie delle cose è inesauribile".

I. Calvino

La corteccia di un albero racconta la storia della pianta e la sua vita, manifesta nella materia i numerosi passi della sua crescita.

Allo stesso modo CORTECCIA racconta la vitalità nascosta della ceramica, il suo respiro e le sue trasformazioni sotto le mani sapienti dell'uomo. Corteccia è l'unica finitura al mondo, inventata e brevettata da AZZURRA, a rendere esplicito il carattere unico e irripetibile della ceramica.

Only after investigating things'surface you can move further to see what is hidden deep inside; however, "things' surface is boundless".

I. Calvino

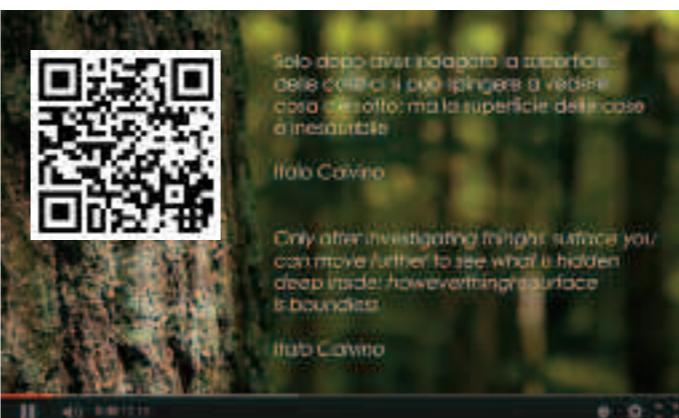

A tree's bark tells the story of that plant and its life, it shows its numerous growth steps into the substance. In the same way, CORTECCIA tells the hidden vitality of ceramic, its breath and its transformation under the craftsman's hands. Corteccia is the only finish in the world, invented and patented by AZZURRA, to show the unique and distinct character of ceramic.

antiscivolo antibatterico antifungo

L'antiscivolo naturale della ceramica da bagno: questo è l'effetto della finitura "corteccia" applicata ai piatti doccia. Cortecchia è una speciale finitura creata da AZZURRA che rende le superfici ceramiche rugose, ricordando alla vista la corteccia di un albero. Quando **Cortecchia** incontra il piatto doccia la superficie **acquisisce una ruvidezza tale da eliminare il problema dello scivolamento.** A differenza di tutti gli altri sistemi antiscivolo, inoltre, **Cortecchia è una finitura con garanzia di tempo illimitata:** la cottura ad altissima temperatura, 1250 gradi, **ne impedisce il logoramento, garantendone durata massima.** Forte della competenza del Direttore Generale Angelo Rossini, ingegnere chimico, in collaborazione con l'Università di Modena, AZZURRA ha creato un sistema **antibatterico e antifungo destinato ai sanitari e ai piatti doccia.** Il trattamento NOBACTER 05 viene applicato sulla ceramica a caldo. **Questo passaggio consente a Nobacter 05 di garantire una durata nel tempo illimitata.** Mentre tutti gli altri sistemi antibatterici e antifungo, infatti, vengono applicati a freddo, il sistema inventato da AZZURRA conferisce un'efficacia battericida e fungicida prolungata nel tempo.

Tecnologia NO BACTER 05

Azzurra ha sviluppato la tecnologia NOBACTER 05 che, basata sulle nanotecnologie e impiegata sulla ceramica sanitaria, **conferisce ai prodotti proprietà fungicide e battericide.** Questa tecnologia consiste nell'applicare uno strato superiore sulla ceramica e **fissare il prodotto tramite una cottura a 110°.** Questo permette a tutti i prodotti AZZURRA, oltre ad assicurare un elevato grado di igiene ed una protezione totale da funghi e batteri, una resistenza di molti più anni degli altri sistemi antibatterici applicati a freddo.

materiale con NANOBACT

materiale senza NANOBACT

antiscivolo antibatterico antifungo

Non-slip. The natural non-slip for the bath in ceramic: this is the effect of the Cortecchia finish applied to shower trays. Cortecchia is a special finish created by AZZURRA that makes the ceramic surfaces rough, reminding the bark of a tree. When **Cortecchia** meets the shower tray its surface **acquires a roughness that would eliminate the slipping problem.** Unlike all other systems non-slip, **Cortecchia is a life time guarantee finish:** the firing at very high temperature, 1,250 degrees, **prevents the attrition, ensuring maximum duration.** Antibacterial and antifungal. Thanks to the expertise of its managing director, Mr. Angelo Rossini, who is also a chemical engineer, and in collaboration with the University of Modena, AZZURRA has created an **antibacterial and antifungal system suitable for sanitary wares and shower trays.** The NOBACTER 05 treatment is applied to hot ceramic. **This step allows Nobacter 05 to ensure an unlimited lifetime.** While all the others antibacterial and antifungal systems, in fact, are applied on cold, the system invented by AZZURRA gives the product a bactericide and fungicide action extended in time.

NO BACTER 05 technology

Azzurra has developed the NOBACTER 05 technology which is based on nanotechnology. **When applied on ceramic sanitary wares it gives bactericidal and fungicidal properties to products.** This technology consists in applying a layer at the top of the ceramic, and **fixing it to the product by firing it at 110°.** This assure all Azzurra products an **high degree of hygiene and protection from fungi and bacteria,** yet it gives much longer endurance than any other antibacterial system applied to cold products.

uniKo il primo piatto doccia su misura
in ceramica h3 cm
uniKo the first tailored shower ceramic h3 cm

"Il solo uomo davvero dotato di sensibilità che ho incontrato nella mia vita era il mio sarto: prendeva le misure tutte le volte che mi vedeva, mentre tutti gli altri mantenevano le vecchie misure e si aspettavano che io mi ci adattassi."

"The only man I know who behaves sensibly is my tailor; he takes my measurements anew each time he sees me. The rest go on with their old measurements and expect me to fit them."

George Bernard Shaw

uniKo

uniKo: il primo piatto doccia in ceramica su misura alto solo 3 centimetri e con anti-sciolio integrato
• Materiale: ceramica
• Altezza: 3 cm
• Larghezza e lunghezza: su misura al centimetro.

L'ambiente bagno è in continua evoluzione, nelle forme, nei colori, nei materiali, ma l'elemento cardine senza il quale non esisterebbe il bagno è da sempre la ceramica.

AZZURRA è da trenta anni presente sul mercato della ceramica sanitaria, e, proprio grazie alla sua esperienza, è riuscita a creare un piatto doccia che per la prima volta riunisce gli elementi fondamentali di un prodotto d'avanguardia con il materiale per eccellenza dell'ambiente bagno. uniKo è il primo piatto doccia realizzato unicamente in ceramica ad essere disponibile su misura e con altezza 3 cm.

Uniko: the first bespoke shower tray in ceramic only 3 cm high and with integrated anti-slip
• Material: ceramic
• Height: 3 cm
• Width and length: customized to the centimeter.

The bathroom is evolving, its shapes, colors, materials, however, the key element without which there would be no bathroom has always been ceramic.

AZZURRA has been on the ceramic sanitary market for thirty years, and, thanks to its experience, has managed to create a shower tray which for the first time brings together the key elements of a cutting-edge product- the minimum height and the tailor made product, with the material of the environment bathroom par excellence: ceramic Uniko is the first shower tray in ceramic only intended to be bespoke and 3 cm. high.

sito

Il sito web è uno strumento determinante per comunicare "i valori aziendali, chi siamo e che cosa facciamo". È una fonte di informazioni disponibile al mondo intero 24 ore al giorno. Per questo è on-line il nuovo sito di AZZURRA che, forte di una filosofia aziendale chiara e condivisa, ha creato e comunicato la sua personalità originale, ritagliandosi uno spazio "su misura" nell'affollato mercato del sanitario. Il marchio, il pay off, i cataloghi, gli stand, il sito, la comunicazione pubblicitaria sono il frutto di scelte semplici e coerenti che utilizzano un linguaggio contemporaneo e riconoscibile che esce dall'omologazione della comunicazione di settore e gli sono valsi il prestigioso Red Dot Award: communication design 2009.

Abbiamo ricreato on-line lo stesso linguaggio visivo utilizzato nella campagna stampa e nel catalogo per comunicare in maniera coerente ed incisiva.

Il sito è accessibile ed intuitivo, facilmente navigabile, funzionale ma di grande impatto, si rivolge sia al privato che ha a disposizione una grande quantità di materiale fotografico per orientarsi nella scelta del suo bagno, che al professionista a cui fornisce in soli due click tutte le informazioni tecniche del pezzo ceramico prescelto.

web site

Internet website is a key means to communicate "corporate values, who we are and what we do." It is a source of information available to the whole world 24 hours a day. The new AZZURRA website is now online, showing a clear and shared corporate philosophy. Its aim is to create and communicate its original personality, carving out a "tailored" niche in the crowded market of sanitary wares. The brand, the pay off, the catalogues, the stands, the website, the advertising communication are all expressions of simple and consistent choices. Using a recognizable and contemporary language out of the communication sector homologation. This allowed AZZURRA to earn the prestigious Red Dot Award: design communication 2009.

We have re-created on-line the same visual language used in the print campaign and in the catalogue to communicate in a coherent and effective way. The website is accessible and intuitive, easily navigable, functional yet of high impact. It is addressed both to private with a large amount of photographic material to guide the choice of his bathroom, and to professional, providing all technical information in just two clicks.

AZZURRA Ceramica aderisce al Club Imprese per la Natura con il progetto Water Saving.

AZZURRA Ceramica rallies to the enterprise club for nature with the Water Saving project.

AZZURRA aderisce al Club imprese per la Natura del WWF Italia

Nell'ottica di un continuo miglioramento e di un'attenzione sempre maggiore per le problematiche ambientali, AZZURRA, con il progetto **Water Saving**, ha deciso di aderire al Club Imprese per la Natura, il **programma WWF** dedicato alla piccola e media impresa italiana.

Il Club Imprese per la Natura si rivolge alle aziende il cui business è connesso all'ambiente, ma anche ad aziende che manifestano interesse verso pratiche di efficienza energetica e di impatto ambientale, in coerenza con i principi del WWF.

Tramite l'adesione al club, AZZURRA sosterrà un progetto di tutela ambientale in una delle **100 Oasi** del WWF.

I prodotti dotati dello scarico Water Saving **fino a 2,7lt** permettono, in alternativa ai tradizionali scarichi con 9lt, di risparmiare fino a 6,3lt di acqua ovvero il **70%** dei consumi ad ogni scarico.

Uno "scarico intelligente" che "salva l'acqua".

Un sistema brevettato e certificato.

Un record mondiale firmato AZZURRA per un futuro migliore nel rispetto del nostro pianeta.

AZZURRA Ceramica joins the "Club Imprese per la Natura" of WWF Italy

As part of AZZURRA goal to aim at continuous improvement and being more environmentally friendly, AZZURRA decided to join the "Club Imprese per la Natura" with the **Water Saving Project**.

The "Club Imprese per la Natura", is a **WWF program** dedicated to small and medium sized Italian companies. In particular, it is aimed at companies that show particular interest in environmental issues and implement practices of energy efficiency, consistent with WWF principles.

As a member of the club, AZZURRA will support an environmental conservation project in one of the **100 WWF Oasis**.

WCS available with the Water Saving system flushing with **up to 2.7lt** are compliant with class 2 WC requirements.

As an alternative to traditional WCS flushing with 9 lt. the new AZZURRA WCS allow to save up to 6,3lt. of water, which corresponds to 70% of water consumption on each flush.

A "smart flushing system" which "saves water".

A patented and certified system.

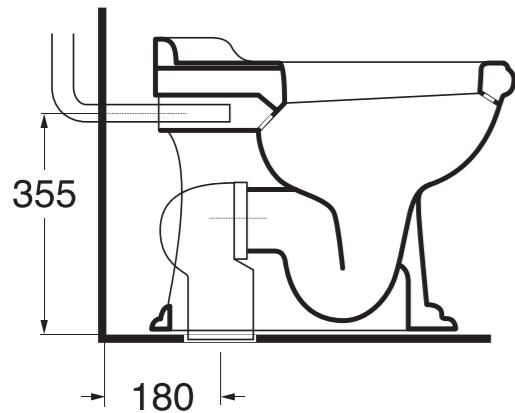

AZZURRA signed a world record for a better future in respect of our planet.

Per andare incontro alle esigenze dei clienti AZZURRA ha ampliato il sistema "traslato" anche al vaso e bidet TULIP ONE.

To meet its customers needs Azzurra has expanded the adjustable flush system even to the TULIP ONE wc and bidet.

WC

fusion

Il bidet è comunemente presente solamente in alcuni paesi europei: Grecia, Italia, Spagna e Portogallo. Nel Nord Europa, in Francia, in Inghilterra e in America non si utilizza per scelta culturale e, in alcuni casi, per le piccole dimensioni che vengono riservate ai bagni, specialmente in città.

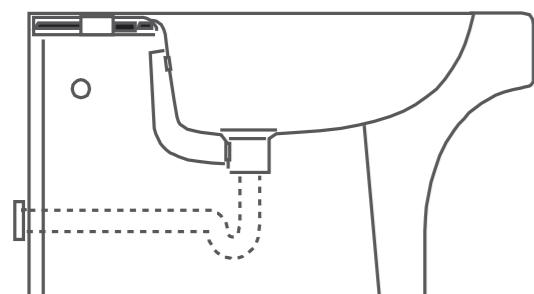

AZZURRA propone, a partire dalla collezione Tulip, uno speciale vaso multifunzione, nella versione sospesa, terra e monoblocco, che unisce al wc la funzione dell'igiene intima, ottimizzando gli spazi. Il design del pezzo ceramico non viene minimamente alterato e il copriwater resta lo stesso. Un miscelatore monocomando posizionato sulla parete accanto al wc regola il volume e la temperatura dell'acqua che fuoriesce da un areatore posizionato dentro il vaso e garantisce un flusso di acqua limpida. Le funzioni del WC e del BIDET si fondono in un'unica soluzione che garantisce igiene e praticità d'uso, aumentano gli spazi in bagno e si riduce drasticamente l'uso della carta igienica - ogni giorno 270.000 alberi finiscono nel gabinetto come carta igienica o vengono buttati come spazzatura.. Solo nell'intera Europa si arriva al consumo di 22 miliardi di rotoli complessivi all'anno.

The bidet is commonly found only in some European countries such as Greece, Italy, Spain and Portugal. In Northern Europe, France, England and America it is not used for cultural choice, and in some cases, due to the small size of the bathroom, especially in cities. AZZURRA presents, from the Tulip collection, a special multi-function WC, available as wall hung, floor and monoblock version. It allows to combine the WC with the intimate hygiene function so that is possible to optimize space.

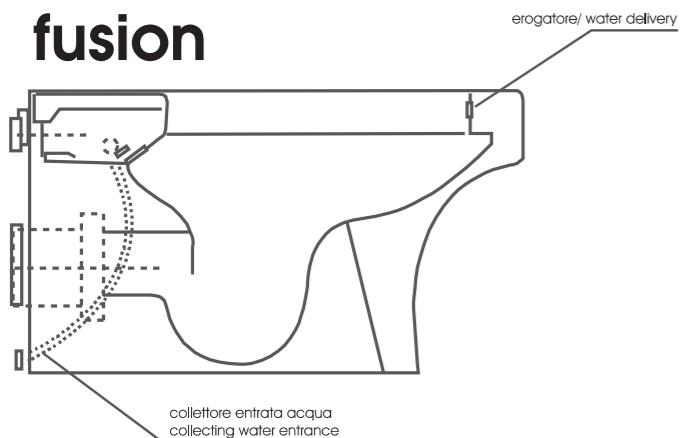

The ceramic piece design is not altered at all, as well as the toilet seats remains the same. A single-control mixer positioned on the wall next to the toilet allows to adjust the temperature and pressure of the water coming out from a water supply located inside the WC and ensures a flow of clear water.

The toilet and bidet function merge into a single solution that ensures hygiene and ease of use, increase the space in the bathroom and drastically reduces the use of toilet paper - 270,000 trees every day end up as toilet paper down the toilet or are discarded like trash .. Only in Europe the total consumption amounts at 22 billion of rolls every year.

bidet

fusion

NUVOLA H 48

Per andare incontro alle nuove esigenze di mercato AZZURRA propone all'interno della collezione NUVOLA, il wc e bidet terra H48. Dai dati ISTAT, si evince che la nostra altezza media è in costante aumento. (Italia, 175cm).

Nei paesi europei e extraeuropei, tale soglia in alcuni casi è stata già raggiunta e superata.

Ad esempio:

germania. 180cm

oland. 182,5cm

sud africa. 177,7cm

australia. 177cm.

H48 nasce per agevolare la seduta, andando incontro alle nuove ergonomie d'uso.

In linea con la collezione, H48 può essere montata con scarico a terra o parete.

To meet new market demands AZZURRA proposes, as part of NUVOLA collection, the H48 floor toilet and bidet .

According to ISTAT analysis, our average height is constantly increasing. (Italy, 175cm).

In European countries and outside Europe, the above threshold, in some cases, has already been reached and exceeded.

For example:

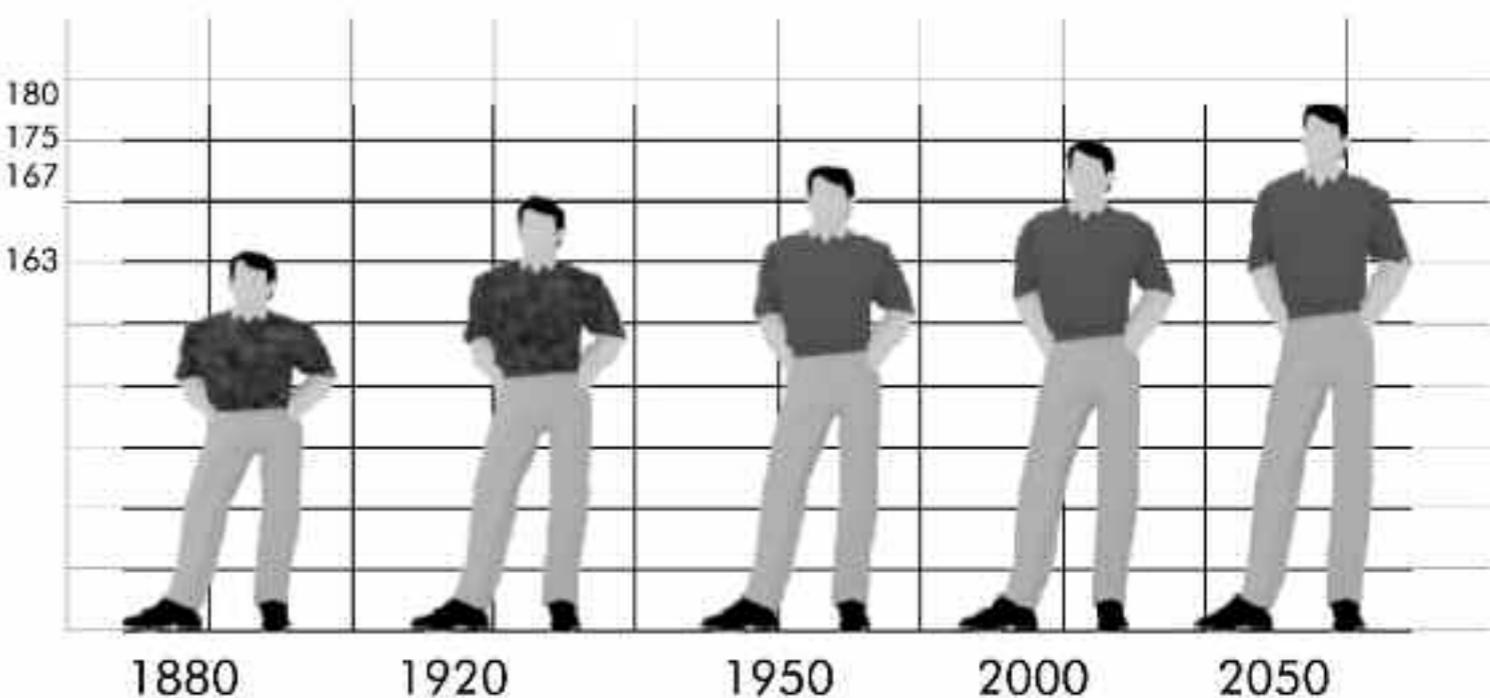

Germany. 180cm

Netherlands. 182.5 cm

South Africa. 177.7 cm

Australia. 177cm

H48 was conceived to facilitate the sitting, meeting the new ergonomics needs. As well as the Nuvola collection, H48 is available both floor or wall trap.

Copriwater THIN

Il coprivaso thin è espressione di un design basato sulla filosofia della dematerializzazione.

I soli 25 mm di altezza totale ne fanno il coprivaso avvolgente più sottile al mondo, realizzato in termoindurente. Ridurre la quantità di materia utilizzata oltre a far bene al pianeta ha migliorato l'estetica del prodotto mantenendo inalterate tutte le sue funzionalità. Un'altra importante innovazione AZZURRA che fa della sostenibilità e della ricerca che produce bellezza i suoi valori fondativi.

Thin seat cover is expression of a design based on the philosophy of dematerialization.

Its total height of just 25 mm makes it the thinnest wrap around thermosetting seat cover in the world. Reducing the amount of the material used is not only good for the planet, but has improved the look of the product, yet maintaining its functionality. Another important innovation from AZZURRA, which has between its founding values sustainability and research that produces beauty.

NUVOLA

WC scarico traslato

Esempio / Example

Per ridurre i tempi e i costi di ristrutturazione il centro ricerca AZZURRA ha messo a punto il wc NUVOLA con scarico traslato, che **può essere installato senza dover modificare gli impianti di scarico esistenti**.

To reduce the time and costs of restructuring, Azzurra technical department has developed the NUVOLA WC with adjustable flush system, which can be installed without modifying the existing flush installations.

nuvola H48

H48

Per andare incontro alle nuove esigenze di mercato AZZURRA propone all'interno della collezione NUVOLA, il wc e bidet terra H48. Dai dati ISTAT, si evince che la nostra altezza media è in costante aumento. (Italia, 175cm).

Nei paesi europei e extraeuropei, tale soglia in alcuni casi è stata già raggiunta e superata.

Ad esempio:

germania. 180cm

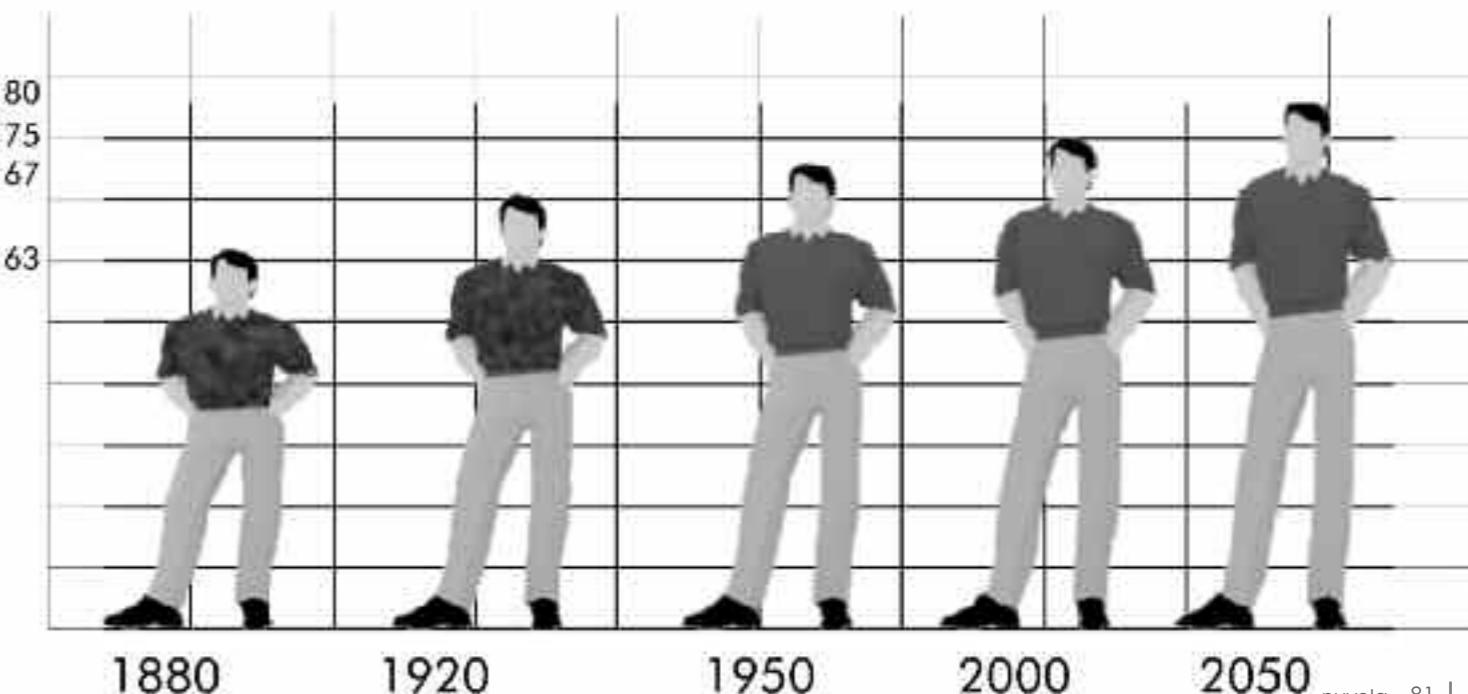

olanda. 182,5cm

sud africa. 177,7cm

australia. 177cm.

H48 nasce per agevolare la seduta, andando incontro alle nuove ergonomie d'uso.

In linea con la collezione, H48 può essere montata con scarico a terra o parete.

bidet tulip one installato su vecchio impianto

Per andare incontro alle esigenze dei clienti AZZURRA ha ampliato il sistema "traslato" anche al vaso e bidet TULIP ONE.

To meet its customers needs Azzurra has expanded the adjustable flush system even to the TULIP ONE wc and bidet.

WC

fusion

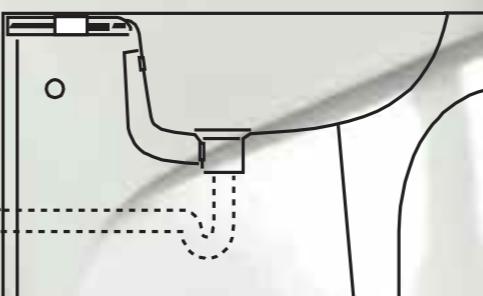

Il bidet è comunemente presente solamente in alcuni paesi europei: Grecia, Italia, Spagna e Portogallo. Nel Nord Europa, in Francia, in Inghilterra e in America non si utilizza per scelta culturale e, in alcuni casi, per le piccole dimensioni che vengono riservate ai bagni, specialmente in città.

AZZURRA propone, a partire dalla collezione Tulip, uno speciale vaso multifunzione, nella versione sospesa, terra e monoblocco, che unisce al wc la funzione dell'igiene intima, ottimizzando gli spazi.

Il design del pezzo ceramico non viene minimamente alterato e il copriwater resta lo stesso. Un miscelatore monocomando posizionato sulla parete accanto al wc regola il volume e la temperatura dell'acqua che fuoriesce da un arettore posizionato dentro il vaso e garantisce un flusso di acqua limpida. Le funzioni del WC e del BIDET si fondono in un'unica soluzione che garantisce igiene e praticità d'uso, aumentano gli spazi in bagno e si riduce drasticamente l'uso della carta igienica - ogni giorno 270.000 alberi finiscono nel gabinetto come carta igienica o vengono buttati come spazzatura.. Solo nell'intera Europa si arriva al consumo di 22 miliardi di rotoli complessivi all'anno.

bidet

fusion

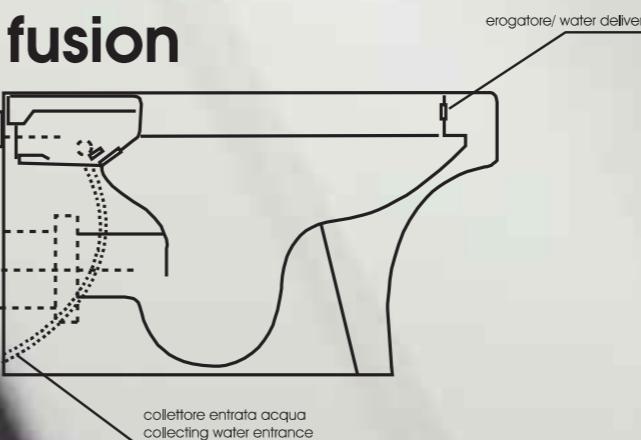

The bidet is commonly found only in some European countries such as Greece, Italy, Spain and Portugal. In Northern Europe, France, England and America it is not used for cultural choice, and in some cases, due to the small size of the bathroom, especially in cities. AZZURRA presents, from the Tulip collection, a special multi-function WC, available as wall hung, floor and monoblock version. It allows to combine the WC with the intimate hygiene function so that is possible to optimize space.

The ceramic piece design is not altered at all, as well as the toilet seats remains the same. A single-control mixer positioned on the wall next to the toilet allows to adjust the temperature and pressure of the water coming out from a water supply located inside the WC and ensures a flow of clear water.

The toilet and bidet function merge into a single solution that ensures hygiene and ease of use, increase the space in the bathroom and drastically reduces the use of toilet paper - 270,000 trees every day end up as toilet paper down the toilet or are discarded like trash .. Only in Europe the total consumption amounts at 22 billion of rolls every year.

TULIP finitura matt

photographer: Studio 21

nasce da una attenta miscelazione di componenti la nuova finitura matt per le collezioni NUVOLA, TULIP e CLAS+ per andare incontro ai nuovi panorami domestici. Una finitura altamente calibrata, per armonizzare la ceramica ai nuovi materiali: CORIAN, DURALIGHT, CRISTALPLANT ecc.

The new matt finish for the NUVO-
LA, TULIP and CLAS+ collections
was born from a careful mix of
components to meet new
domestic environments.

An highly calibrated finish to har-
monize ceramic with new mate-
rials such as Corian, DURALIGHT,
etc. CRISTALPLANT.

Ancora un premio prestigioso per TANDEM, vincitore già dell'IF e dell'ADI INDEX. AZZURRA Sanitari e Paolo Ulian con il progetto TANDEM, ricevono la Menzione d'Onore al compasso d'Oro 2011. Un riconoscimento unico, che sottolinea il magnifico lavoro di Paolo Ulian, e l'impegno che l'azienda sta portando avanti negli ultimi anni.

Another very prestigious award for TANDEM, still winner of the if and of the ADI INDEX. AZZURRA Sanitari and Paolo Ulian receive the honorary mention to the Golden Compass 2011 for the project TANDEM. A really unique award for its prestige that stresses the magnificent work of Paolo Ulian and the commitment that AZZURRA is bringing forward during these last years.

PIATTI DOCCIA

CORTECCIA

OFFICINA AZZURRA

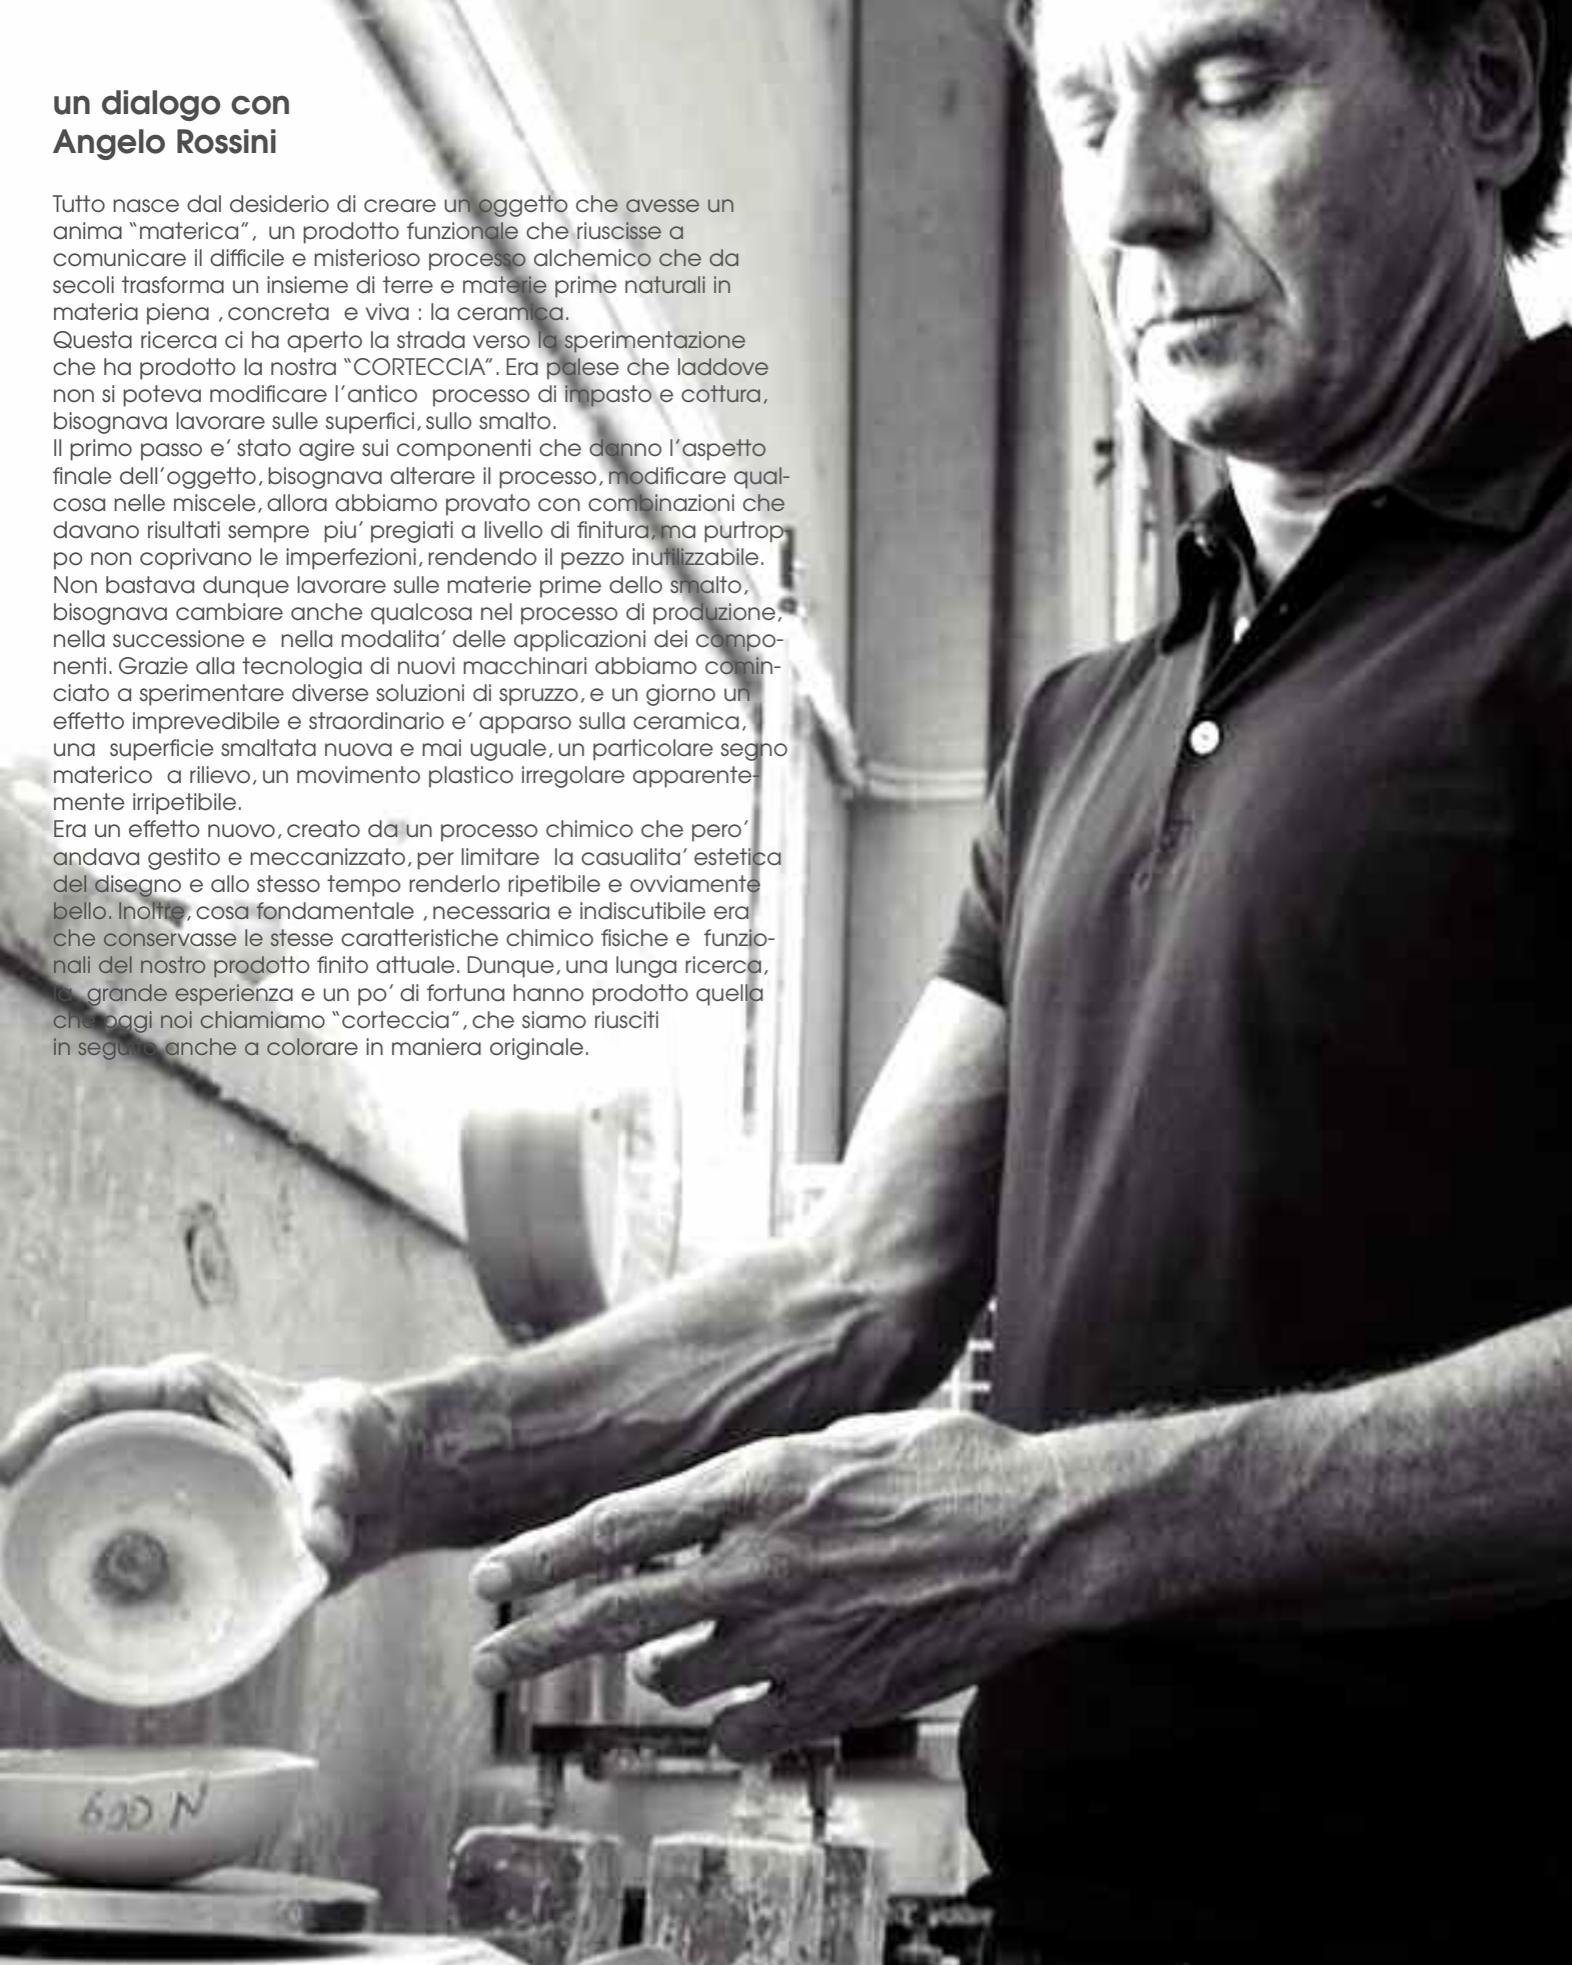

un dialogo con Angelo Rossini

Tutto nasce dal desiderio di creare un oggetto che avesse un anima "materica", un prodotto funzionale che riuscisse a comunicare il difficile e misterioso processo alchemico che da secoli trasforma un insieme di terre e materie prime naturali in materia piena, concreta e viva: la ceramica.

Questa ricerca ci ha aperto la strada verso lo sperimentazione che ha prodotto la nostra "CORTECCIA". Era palese che laddove non si poteva modificare l'antico processo di impasto e cottura, bisognava lavorare sulle superfici, sullo smalto.

Il primo passo è stato agire sui componenti che danno l'aspetto finale dell'oggetto, bisognava alterare il processo, modificare qualcosa nelle miscele, allora abbiamo provato con combinazioni che davano risultati sempre più pregiati a livello di finitura, ma purtroppo non coprivano le imperfezioni, rendendo il pezzo inutilizzabile. Non bastava dunque lavorare sulle materie prime dello smalto, bisognava cambiare anche qualcosa nel processo di produzione, nella successione e nella modalità delle applicazioni dei componenti. Grazie alla tecnologia di nuovi macchinari abbiamo cominciato a sperimentare diverse soluzioni di spruzzo, e un giorno un effetto imprevedibile e straordinario è apparso sulla ceramica, una superficie smaltata nuova e mai uguale, un particolare segno materico a rilievo, un movimento plastico irregolare apparentemente irripetibile.

Era un effetto nuovo, creato da un processo chimico che però andava gestito e meccanizzato, per limitare la casualità estetica del disegno e allo stesso tempo renderlo ripetibile e ovviamente bello. Inoltre, cosa fondamentale, necessaria e indiscutibile era che conservasse le stesse caratteristiche chimico fisiche e funzionali del nostro prodotto finito attuale. Dunque, una lunga ricerca, la grande esperienza e un po' di fortuna hanno prodotto quella che oggi noi chiamiamo "corteccia", che siamo riusciti in seguito anche a colorare in maniera originale.

a dialogue with Angelo Rossini

Everything stems from the desire to create an object that had a "material" soul. A functional product that was able to communicate the difficult and mysterious alchemical process that for centuries has been transforming a blend of land and natural raw materials in a full, concrete and living material: ceramics. This research brought us to the experimentation that led us to "corteccia", which in Italian stands for bark.

It was pretty obvious that, changing the ancient process of mixing and firing could not be feasible, the only way, was to work on surfaces, on glazing. The first step was to work on the components that give the final appearance of the object.

It was necessary to alter the process, to change something in the mixtures. Then we tried blends, which resulted in more and more quality level of finish. But unfortunately it did not cover imperfections, making the piece unusable.

Working on the raw materials of glaze was not enough, it was also necessary to change something in the production process, in the method and sequence of the application of components... Thanks to the technology of new machineries, we began to experiment with different glazing solutions.

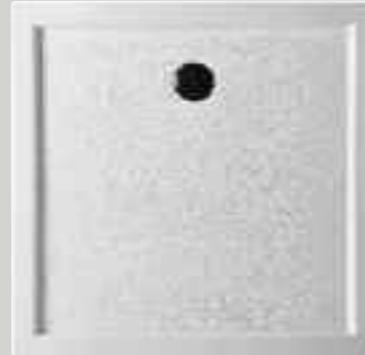

One day an unpredictable and extraordinary effect appeared on the ceramic piece; a new and patchy glazed surface, a particular material mark relief, an irregular plastic movement, apparently unique. It was a new effect, created by a chemical process. However, in order to limit the aesthetics randomness of the design, but at the same time make it repeatable - and of course beautiful, it had to be managed and mechanized. In addition, the fact that this new solution retained the same chemical-physical and functional features of our current finished product, was essential and indisputable. As a result of long research, experience and a bit of luck, we conceived what we now call "CORTECCIA", to which we also gave a colour later.

uniKo

uniKo: il primo piatto doccia in ceramica su misura alto solo 3 centimetri e con antiscivolo integrato

- Materiale: ceramica
- Altezza: 3 cm
- Larghezza e lunghezza: su misura al centimetro.

L'ambiente bagno è in continua evoluzione, nelle forme, nei colori, nei materiali, ma l'elemento cardine senza il quale non esisterebbe il bagno è da sempre la ceramica.

Azzurra è da trenta anni presente sul mercato della ceramica sanitaria, e, proprio grazie alla sua esperienza, è riuscita a creare un piatto doccia che per la prima volta riunisce gli elementi fondamentali di un prodotto d'avanguardia con il materiale per eccellenza dell'ambiente bagno.

Uniko è il primo piatto doccia realizzato unicamente in ceramica ad essere disponibile su misura e con altezza 3 cm.

uniKo: the first ceramic shower tray tailored only 3 cm high and with integrated anti-slip

- Material: ceramic
 - Height: 3 cm
 - Width and length: customized to the centimeter
- The bathroom is evolving, shapes, colors, materials, but the key element without which there would be no bathroom has always been the ceramics.

Azzurra is for thirty years on the market of sanitary ceramics, and, thanks to his experience, has managed to create a shower tray which for the first time brings together the key elements of a cutting-edge product with the material par excellence of the environment bathroom.

Uniko is the first ceramic shower tray only intended to be available to measure and height 3 cm.

piatto doccia uniKo quadrato, infinite combinazioni, dimensioni: MINIMO 60cm x 60cm MASSIMO 100cm x 100cm.
uniKo square shower tray, endless combinations, sizes: MINIMUM cm. 60 x 60, MAXIMUM cm. 100 x 100.

NUVOLA H 48

Per andare incontro alle nuove esigenze di mercato AZZURA propone all'interno della collezione NUVOLA, il wc e bidet terra H48. Dai dati ISTAT, si evince che la nostra altezza media è in costante aumento. (Italia, 175cm). Nei paesi europei e extraeuropei, tale soglia in alcuni casi è stata già raggiunta e superata.

Ad esempio:

germania. 180cm

olanda. 182,5cm

sud africa. 177,7cm

australia. 177cm.

H48 nasce per agevolare la seduta, andando incontro alle nuove ergonomie d'uso.

In linea con la collezione, H48 può essere montata con scarico a terra o parete.

To meet new market demands AZZURA proposes, as part of NUVOLA collection, the H48 floor toilet and bidet.

According to ISTAT analysis, our average height is constantly increasing. (Italy, 175cm).

In European countries and outside Europe, the above threshold, in some cases, has already been reached and exceeded.

For example:

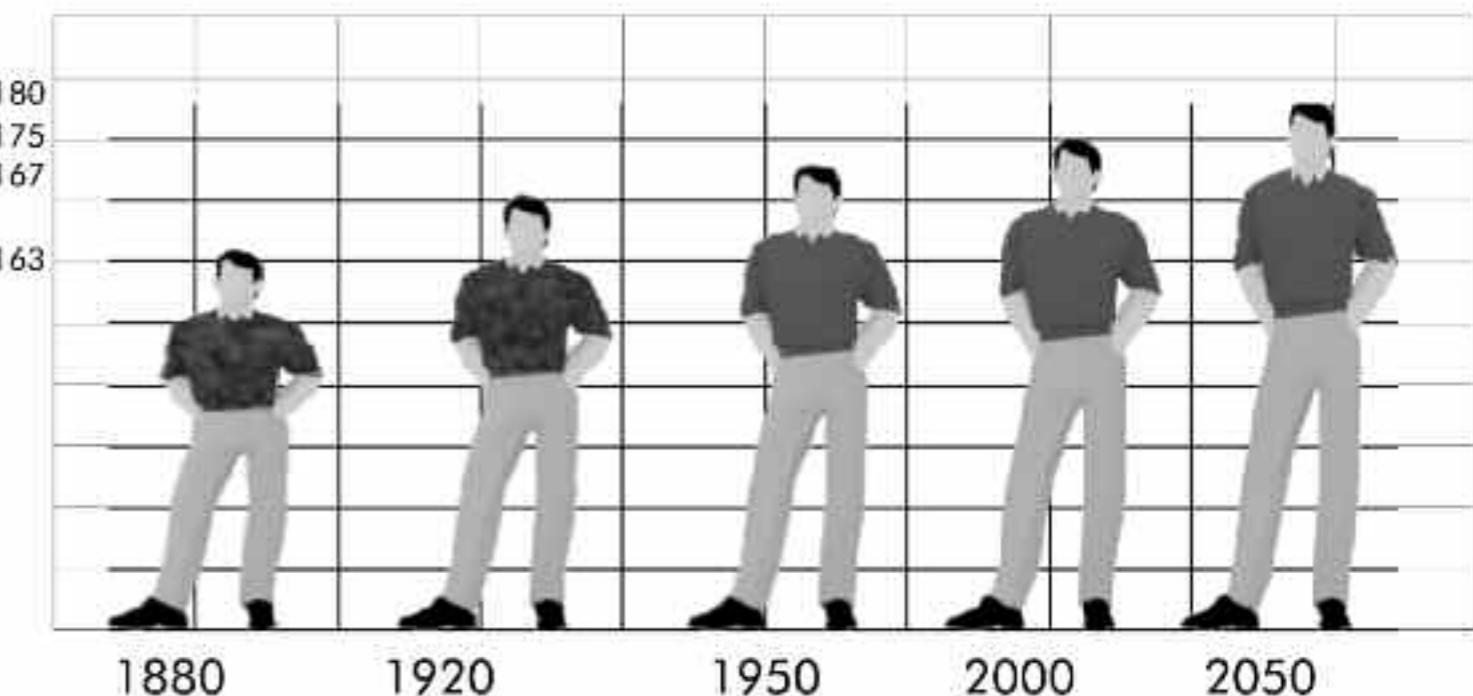

Germany. 180cm

Netherlands. 182.5 cm

South Africa. 177.7 cm

Australia. 177cm

H48 was conceived to facilitate the sitting, meeting the new ergonomics needs. As well as the Nuvola collection, H48 is available both floor or wall trap.

scarico traslato

Alla ricerca di nuove soluzioni tecniche, per andare incontro alle esigenze del mercato nazionale e internazionale, il centro di ricerche AZZURRA, ha portato a termine una nuova soluzione **per agevolare le ristrutturazioni**.

Il nuovo wc NUVOLO, può essere installato senza dover ripristinare impianti di scarico esistenti. Con un range di 160 mm di interasse, lo scarico a terra può essere montato in quasi tutte le situazioni esistenti. Partendo da una attenta ricerca, i vecchi impianti riportano uno scarico tra i 60 e i 220 mm di distanza dal muro (misure dell'interasse). Attraverso un'attenta e meticolosa ricerca, senza modificare l'estetica del pezzo, NUVOLO traslato, risolve pienamente una problematica progettuale, che soddisfa l'utente finale con un ampio risparmio economico.

adjustable flush system

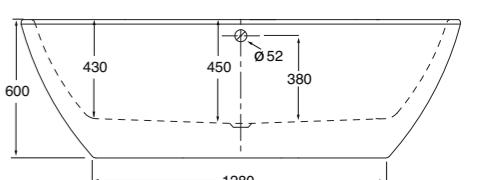

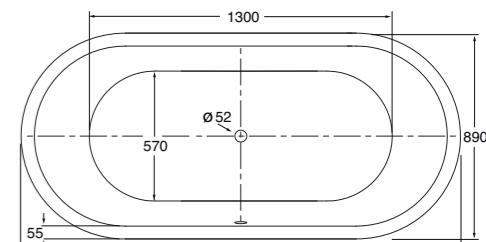

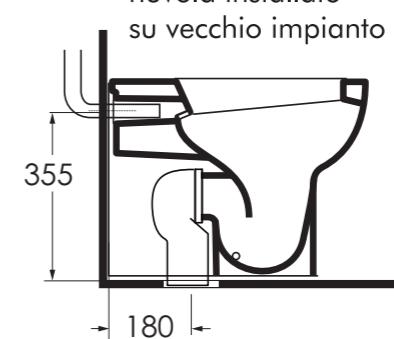

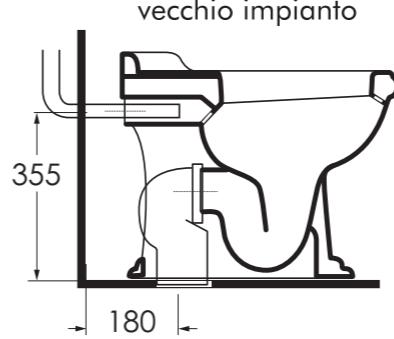

Looking for new technical solutions to meet national and international market demands, Azzurra research laboratory has studied a new solution to easy bathroom renovations. New Nuvola WC can, in fact, be installed without renovating existing installations or having to perform masonry works. With a range of 160 mm. center to center distance, the ground discharge can be mounted in several existing situations. Old installations, in fact have a distance to the wall ranging from 60 mm. to 220 mm. Nuvola adjustable flushing system, avoids, replacing each time different types of existing installations. All this can be achieved without changing the aesthetics of the piece and with a large cost savings.

scarico traslato vaso

Per agevolare le ristrutturazioni il centro ricerche di AZZURRA ha creato il nuovo wc TULIP ONE, che può essere installato senza dover modificare impianti esistenti. Considerando che i vecchi impianti riportano uno scarico tra i 60 mm e i 220 mm di distanza dal muro (misure dell'interasse), il nuovo wc TULIP ONE può essere installato in quasi tutte le situazioni esistenti, avendo un range di interasse di 160 mm. Attraverso un'attenta e meticolosa ricerca, senza modificare l'estetica del pezzo, TULIP ONE traslato risolve pienamente una problematica progettuale, che soddisfa l'utente con un ampio risparmio economico.

WC with adjustable discharge

In order to facilitate the restructuring process, Azzurra technical department has developed the new TULIP ONE WC, which can be installed without modifying the existing discharge installations.

Most of the existing bathrooms have a center to center flush distance between 60 and 220 mm away from the wall; having a center to center range of mm. 160, the new TULIP ONE WC, can be installed in almost all existing situations.

Through a painstaking and meticulous research, the TULIP ONE WC with adjustable discharge fully solve a design problem, without changing the aesthetics of the piece. Therefore is able to satisfy the users with a large cost savings.

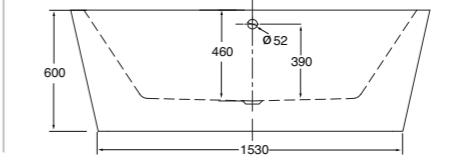

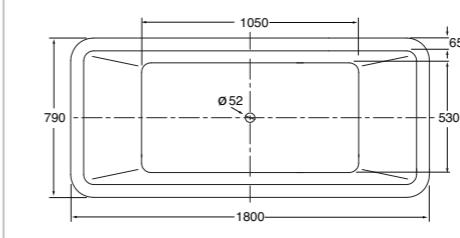

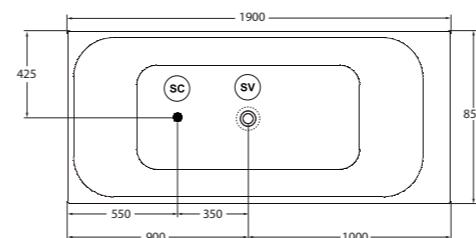

scarico traslato bidet

Per completare il bagno senza dover modificare gli impianti esistenti, AZZURRA ha creato anche il nuovo bidet TULIP ONE "traslato". Con un range di movimento che va da un minimo di 140 mm ad un massimo di 280 mm per l'altezza delle utenze di acqua calda e fredda, un interasse di massimo 220 mm ed un range di movimento del centro scarico del sifone che va da un minimo di 80 mm ad un massimo di 170 mm di altezza, il bidet TULIP ONE può essere adattato ai vecchi impianti già esistenti.

Bidet with adjustable discharge

To complete the bathroom without having to modify existing installations, Azzurra has also created a new TULIP ONE bidet with adjustable discharge.

The TULIP ONE bidet can be easily adapted to existing bathroom thanks to the following technical features: hot and cold water supply height motion range from a minimum of mm 140 to a maximum of mm 280. A center to center of maximum mm 220 and an height motion range of the centre siphon discharge from a minimum of mm 80 to a maximum of mm 170. With a range of motion that ranges from a minimum of 140 mm to a maximum of 280 mm for the height of the loads of hot and cold water, a wheelbase of 220 mm and a maximum range of motion of the center of the siphon drain that goes from a minimum of 80 mm to a maximum of 170 mm in height, bidet TULIP ONE can be adapted to existing old installations.

Trattamento antibatterico - antifungo applicabile su tutti i prodotti in ceramica e coprivasì.

The treatment antibacterial - antifungal can be applied to all ceramic products and cover-seat.

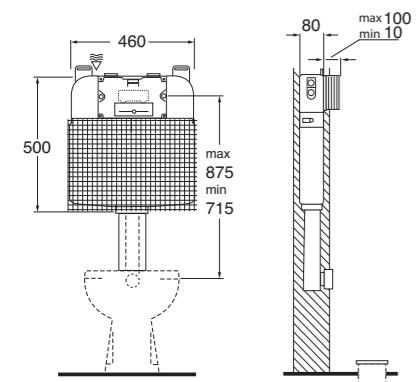

costo applicazione su tutti i prodotti in ceramica 60,00 €
price of the application to all ceramic products 60,00 €

costo applicazione su tutti i coprivasì 20,00 €
price of the application to all cover-seat 20,00 €

Tutti i sanitari AZZURRA in base alla normativa europea UNI EN 997:2007 per i vasi in CLASSE 2, effettuano uno scarico completo monoflusso con soli 3 litri d'acqua associandoli alle placche/cassette di scarico AZZURRA.

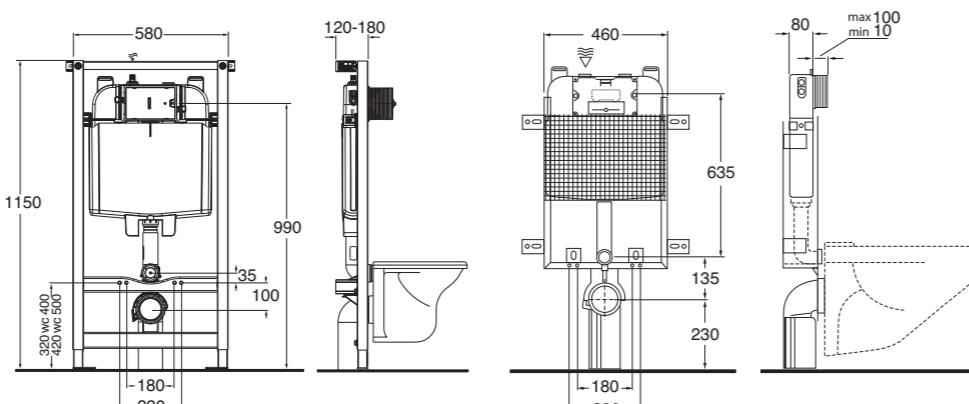

All sanitary, combined with AZZURRA plaques/flushing cisterns is able to make a complete flush with just **3 litres** of water, according to European standard UNI EN 997:2007 for CLASS 2 WC.

Salvo le condizioni particolari, la merce è venduta franco ns/stabilimento ed in ogni caso viaggia a rischio e pericolo del committente anche se resa franco destino. Ogni reclamo dovrà essere fatto presso la sede della ns/società e comunque non oltre otto giorni dopo il ricevimento della merce. Gli ordini comunque conferitici sia direttamente che a mezzo ns/agenti non saranno da noi ritenuti validi se non muniti della firma di accettazione del cliente. L'imballo è addebitato al costo. Le spese di emissione tratte sono a carico dell'acquirente. Il contratto di compravendita si intende stipulato e perfezionato in Civita Castellana (VT) di guisa che per ogni eventuale controversia foro competente è il Tribunale di Viterbo. Le misure riportate sul presente listino e sul catalogo generale sono da considerarsi indicative e soggette a variazioni. Le schede tecniche riportate su tutti i cataloghi e depliant sono soggette a variazioni dovute alla tolleranza del prodotto in vitreous china. Si consiglia una verifica più accurata prima di predisporre gli impianti. I prezzi sono puramente indicativi e si intendono validi salvo variazioni intervenute all'epoca della consegna. La conferma degli ordini non comporta l'obbligo di rispettare le percentuali di scelta in essi indicate. Eventuali discordanze riscontrate all'atto della consegna non danno diritto a risarcimenti, né ad accrediti per differenze di prezzo tra le medesime scelte. La AZZURRA SANITARI IN CERAMICA S.p.A. garantisce la qualità del prodotto e si impegna a sostituire i pezzi che risultassero difettosi entro 3 anni dalla consegna. In ogni caso le spese di qualunque genere per la sostituzione del materiale risultato difettoso saranno comunque ad esclusivo carico dell'acquirente. Il materiale sostituito è reso franco ns/stabilimento. Il materiale deve comunque essere contestato prima dell'installazione. Il presente listino annulla e sostituisce tutti i precedenti.

Unless special conditions, goods are sold ex-works and in any case, purchasers must bear freight risks even when carriage free has been agreed between the parts. Any complaint must be addressed to the company headquarters not later than eight days after the receipt of goods. Orders received, both, directly and through our agents, shall not be deemed valid without customer signature acceptance. Packaging is charged at cost.

Draft expenses to be paid by the buyer. The contract of sale is drawn up and executed in Civita Castellana (VT), therefore for any dispute, jurisdiction is the Court of Viterbo. The dimensions shown on this price list and general catalogue are for guidance only, therefore can be subject to change. Technical descriptions inside all catalogues and brochures are subject to change due to the tolerance of the vitreous china products. Accurate check is recommended before installation. Prices are only indicative and are valid except for changes at the time of delivery. The order confirmation does not imply an obligation to respect the choice rates indicated therein. Any discrepancies found at the time of delivery do not entitle the client to compensation nor to crediting for differences in price between the same choices. AZZURRA SANITARI IN CERAMICA SpA guarantees the quality of the product and will replace the pieces that has been proven to be defective within 3 years after delivery. In any case, the costs of any kind for the replacement of defective material will still result in buyer's responsibility. Delivery term of replaced material is ex-works. Good must always be challenged before installation. This price list supersedes all previous versions.

I prezzi riportati nel listino non sono compresi di IVA
Prices listed in the price list do not include VAT
